INSTANT COLD THERAPY

Our Instant Cold Packs provide convenient, on-the-go cold therapy to help immediately reduce swelling and provide comfort after injury. Portable and easy to activate, our Instant Cold Packs can be used anytime you need it without the mess of ice cubes. Our Classic version provides instant cold therapy as you know it.

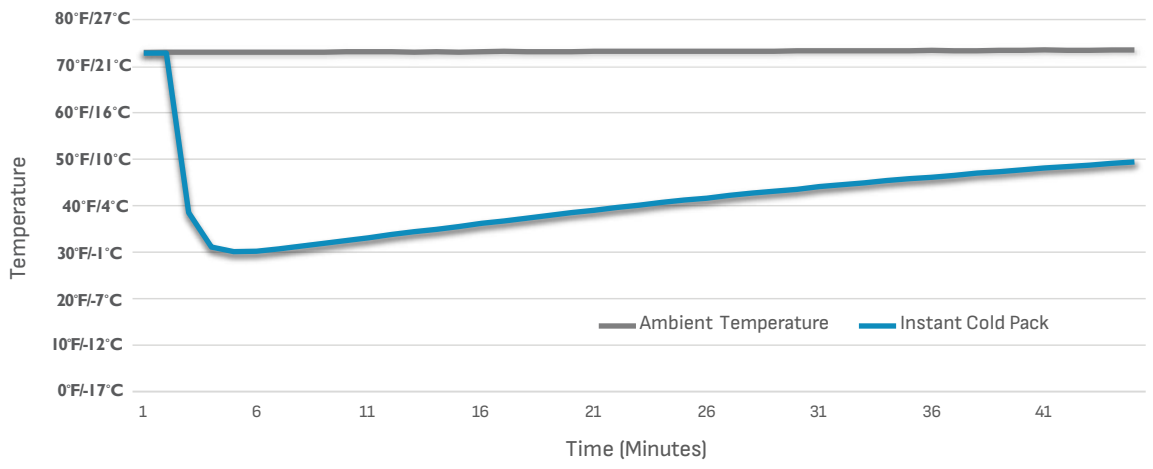

Our Gentle Touch™ version features a soft outer layer, allowing for safe, direct-to-skin application without the need for a barrier, delivering the same effective relief wherever it is needed.

COLD THERAPY:
For immediate pain relief

- Relieves aches & pains: Reduces inflammation and muscle spasms
- Reduces swelling & bruising: Helps soothe pain by reducing blood flow to the area
- Numbs the sore area: Works effectively to reduce pain

Temperature Performance – Rapid Relief Instant Cold Packs

This graph shows the average holding temperature of Rapid Relief Instant Cold Packs over a period of time, achieving an optimal temperature range for approximately 20 minutes.

Instant Cold Packs

Classic | Direct-to-Skin with Gentle Touch™

Item Number:	INC0003402CB (2ct.) EU | INC0000702CB (2ct) NA	INC0003508CB (8ct) EU | INC0000808CB (8ct) NA
Size:	5.8" x 8.5"	5.8" x 8.5"
Material:	PE/PA/Non-Woven	PE/PA/Non-Woven
Fill:	Calcium Ammonium Nitrate | North America / EU	Calcium Ammonium Nitrate | North America / EU

Instant Cold Compress with Gentle Touch™

- Delivers approximately 2˚C/36˚F of cold therapy when activated at room temperature.
- Provides all of the same benefits as our Classic version, but with our Gentle Touch™ material for safe, direct-to-skin application.
- Reduces swelling & bruising: Helps soothe pain by reducing blood flow to the area.
- Numbs the sore area: Works effectively to reduce pain.

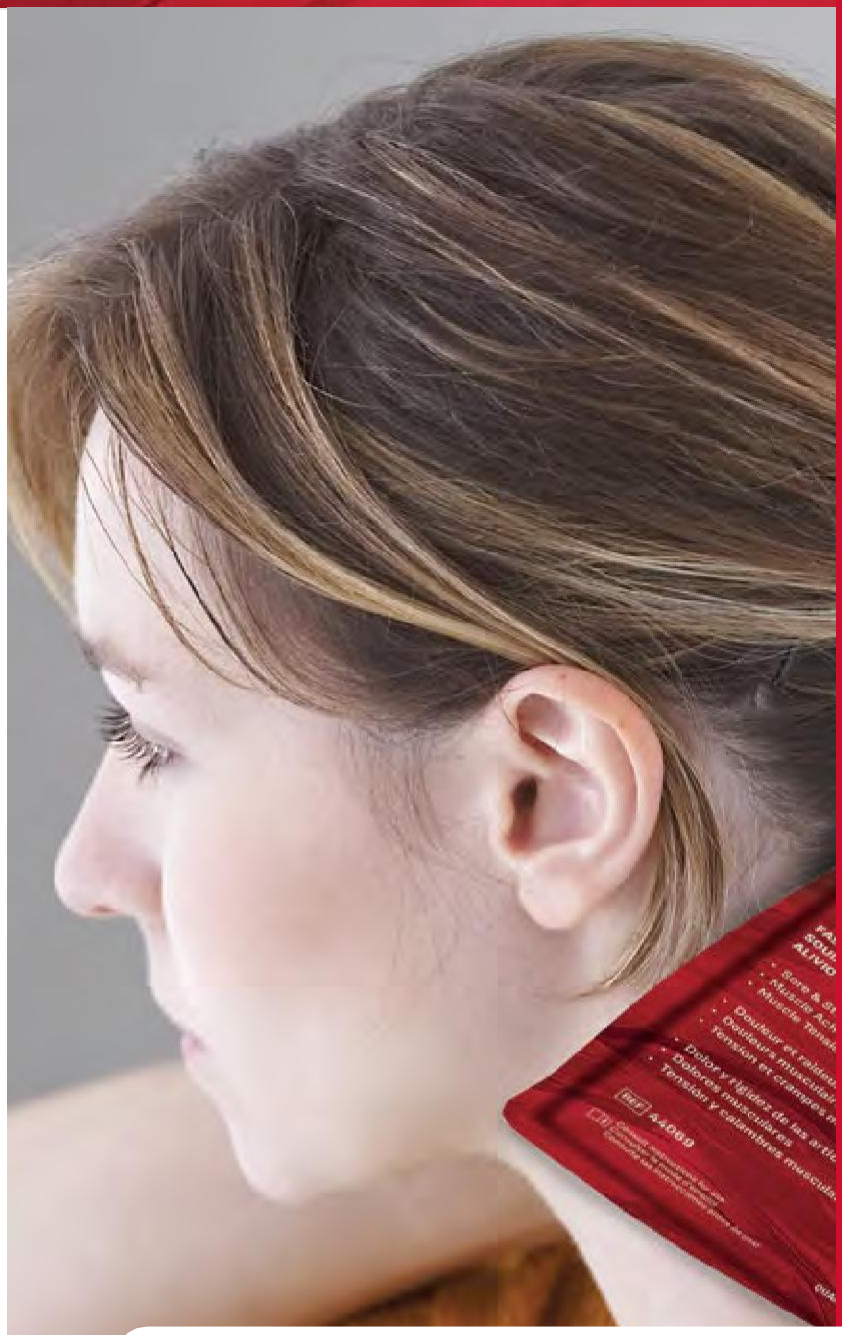

Item Number:	INC0003601CB (EU) | INC0000901CB (1ct) NA	INC5000924SD (EU) | INC5000424SD (24ct) NA
Size:	8.5" x 5.8"	5.8" x 8.5"
Material:	PE/PA/Non-Woven	PE/PA
Fill:	Calcium Ammonium Nitrate | North America / EU	Calcium Ammonium Nitrate | North America / EU

Instant Cold Compress with Gentle Touch™ and Attached Strap

- All the same benefits of our Instant Cold Compress with Gentle Touch™, with the added benefit of a patented integrated strap.
- Conveniently acts as an instant cold pack, skin barrier and compression band all in one to provide all components of R.I.C.E. (Rest. Ice. Compression. Elevate) therapy.

Instant Cold Compress

- Delivers approximately 1˚C/34˚F of cold therapy when activated at room temperature.
- Relieves aches & pains: Reduces inflammation and muscle spasms.
- Distributed in a 24-unit shelf display.

INSTANT HOT THERAPY

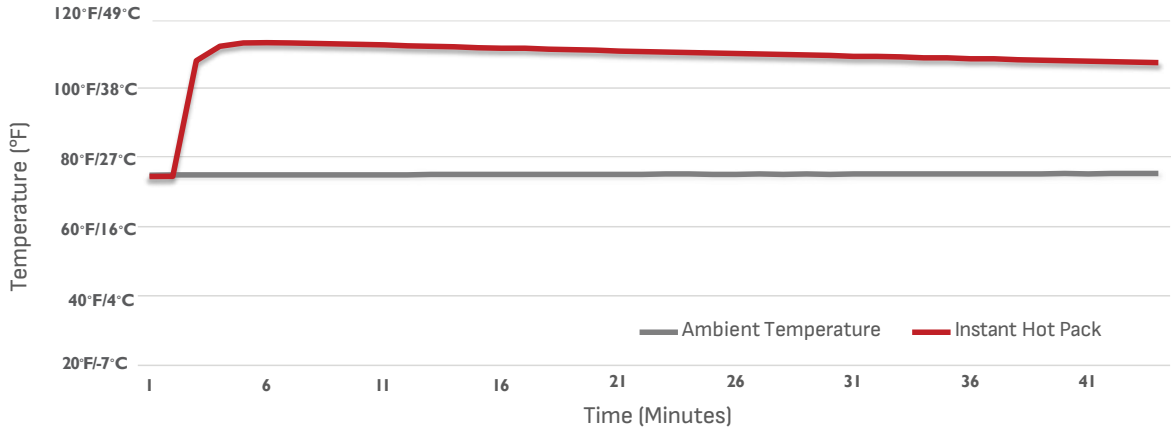

Our Instant Hot and Warm Packs, filled with patented Insta-Gel technology, deliver soothing heat instantly to promote therapeutic healing. Upon activation, the liquid turns into a contouring gel that molds to any area needing relief. While our Classic version is safe for direct-to-skin application, our Gentle Touch™ version features a soft, non-woven material that feels gentle on the skin, eliminating the need for a towel while providing comforting warmth where it's needed most.

HOT THERAPY RELIEF:

- Sore and stiff joints: Encourages relaxation and blood circulation
- Muscle aches and pain: Relaxes sore muscles by providing warm comfort
- Muscle tension and cramps: Increases blood flow to the affected area

Temperature Performance – Rapid Relief Instant Hot Pack

This graph shows the average holding temperature of Rapid Relief Instant Hot Packs over a period of time, achieving an optimal temperature range for approximately 23 minutes.

Instant Hot Packs

Classic | Direct-to-Skin with Gentle Touch™

Instant Hot Packs deliver soothing heat right away to help promote therapeutic healing where needed. Filled with our Insta-Gel technology, the hot pack turns from a liquid to contouring gel instantly upon activation allowing the pack to mold to any area. Our "Squeeze-to-Pop" activation is as simple as squeezing the side arrows to pop the inner fluid bag.

Features

- Patented Insta-Gel technology turns from a liquid to contouring gel that molds to area being treated
- Made with sodium acetate, it is designed to hit a specific temperature so heat can be controlled and customized

- Stretchable material provides customizable compression for targeted relief.

ICE BAGS

The ice bag is a classic home remedy to help treat everything from head-aches to foot pain, and we "made it better" by pre-filling our 9" ice bag with reusable gel beads to eliminate the inconvenience of messy ice cubes. The soft gel beads make the ice bag comfortable by eliminating the sharp edges of the ice cubes, and they are moldable to the area being treated. Store in the freezer and it is always ready when you need it.

COLD THERAPY RELIEF:
For immediate pain relief

- Relieves aches & pains: Reduces inflammation and muscle spasms
- Reduces swelling & bruising: Helps soothe pain by reducing blood flow to the area
- Numbs the sore area: Works effectively to reduce pain

Reusable Hot Menstrual Pain Relief Compress with Strap

- Multiple Body Parts: Ideal for use on the abdomen, lower back, and other areas needing pain relief.
- Long-Lasting Heat: Delivers approximately 43.5°C (110°F) of heat after microwaving, providing effective and consistent warmth.
- Gel Technology: The gel inside the compress molds comfortably around body contours for even heat distribution.
- Crack-Resistant Inner Liner: Protects against leakage, ensuring long-lasting, reliable use.
- Attached Strap: Holds the pack in place.

Feminine Care
Menstrual Pain Relief

Instant Cold Perineal Compress provides fast-acting cold therapy to relieve pain and reduce swelling in the perineal area with minimal nursing intervention, making it ideal for postpartum care and post-vasectomy recovery.

Instant Warm Perineal Compress delivers soothing warmth to reduce perineal pain before and after childbirth, promoting tissue relaxation and improved circulation. Convenient and effective, it is an excellent alternative to a warm sitz bath and can also help relieve menstrual cramps.

Features

- Extra absorbent pad with a long front-to-back area for added coverage and an adhesive strip to keep it firmly in place.
- FTP (Fold-to-Pop) technology for easy activation.
- Not made with natural rubber latex.
- Direct-to-skin application.

Item Number:	PPC3500908CB (8ct) EU | PPC3500608CB (8ct) NA	PPH3500104CB (4ct)
Size:	13.75" x 4.65"	13.75" x 4.65"
Material:	Non Woven /Fluff /Polyethelyne	Non Woven /Fluff /Polyethelyne
Fill:	Calcium Ammonium Nitrate | North America / EU	Sodium Acetate and Water

Instant Cold Perineal Compress

- Delivers approximately 4.4˚C/40˚F of cold therapy when activated at room temperature.
- Relief from pain and inflammation of the perineal area after childbirth.
- Effective also for post vasectomy procedures.

Instant Warm Perineal Compress

- Delivers approximately 45.6˚C/114˚F of warm therapy when activated at room temperature.
- Soothes perineal area.
- Encourages relaxation and blood circulation prior to childbirth (typically 72 hours warm therapy use).

Instant Cold Ultra-Thin Maxi-Pad

Direct to Skin

Patent Pending 19/106,516

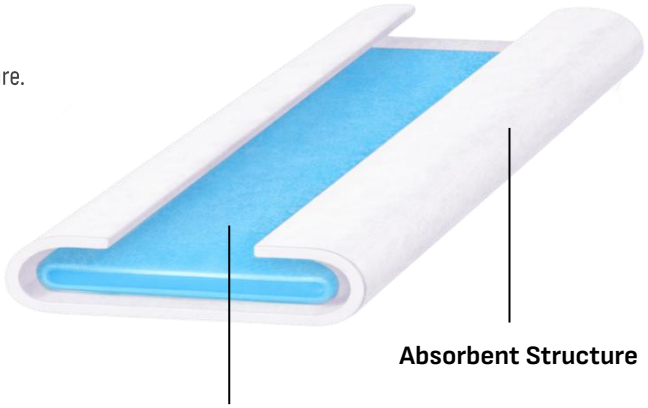

Our Ultra Thin Instant Cold Maxi Pad provides the same fast-acting relief and leakage protection from perineal pain after childbirth. This Ultra Thin Maxi-Pad is designed for comfort first and can be use direct-to-skin. It features an extra-absorbent pad that is 26% thinner and 30% lighter than the leading national brand. Easy activation via FTP™ technology, and controlled cold therapy at approximately -7˚C/20˚F to 8˚C/47˚F. Latex-free and available in bi-lingual flexible outer packaging.

Features:

- Ultra Thin. 26% Thinner, and 30% lighter than the leading national brand.
- Delivers between -7˚C/20˚F to 8˚C/47˚F of cold therapy when activated at room temperature.
- Direct-to-skin application.
- Extra absorbent pad with an adhesive strip to keep it firmly in place.
- FTP™ (Fold-to-Pop) technology for easy activation.
- Not made with natural rubber latex.

Fast relief for:

- Pain and inflammation of the perineal area after childbirth.
- Effective also for post vasectomy procedures.

Comfort First - Ultra Thin

- 26% thinner and 30% lighter than the leading brand.

Item Number:	PPC3500308CB EU | PPC3501008CB NA
Size:	4.6" x 11.5"
Material:	Fluff Pulp/Non-Woven
Fill:	Calcium Ammonium Nitrate | North America / EU

Instant Cold Ultra-Thin Perineal Maxi-pad

- Reliable absorption without the additional bulk.
- Soothing cooling center strip for increased contact where needed most.
- Functional, slimmer design allows for enhanced comfort.
- Compact design delivers smaller shelf foot-print.
- Reduced size provides significant logistical cost savings.

HEAT BANDS

Ultra-thin, odorless Air Activated Heat Bands provide continuous, low-level heat for up to 8 hours, helping to relieve pain and soothe sore muscles. Designed for discreet wear under clothing, these non-medicinal, iron-filled bands distribute heat evenly and are customizable in size, shape, color, and application to fit specific body areas.

HOT THERAPY — For ongoing pain & stiffness

- Encourages quick recovery: Increases blood flow to help heal damaged tissue faster
- Soothes stiff joints: Improves flexibility and helps improve mobility
- Eases muscle aches: Adds comfort to muscles and calms soreness

Designed to target the lower back and hip areas, this air-activated heat band delivers steady, low-level heat for up to 8 hours to help ease muscle aches and joint stiffness. The iron-filled wrap distributes warmth evenly to soothe soreness and improve comfort during daily activities.

Ultra-thin and odorless, the band adheres securely to the skin and can be worn discreetly under clothing. Its flexible design allows for a comfortable fit that conforms to the body for reliable, on-the-go relief.

Item:	HBH1500303CB (3ct)
Size:	L/XL
Material:	Non-Woven
Fill:	Iron Filings

Air Activated Heat Band for Back & Hips 3ct

- Delivers long lasting heat therapy for up to 8 hours.
- Customized to fit the body area being treated.
- Ultra thin and can be worn discreetly under clothing.
- All-in-one wrap belt featuring hook & loop fastener to hold wrap in place.
- Large, ergonomic design to cover both the lower back and hip regions for maximum relief.

Air Activated Heat Bands

Multi-Use, Small & Large Areas & Neck & Shoulders

This compact heat band provides targeted, air-activated heat to help relieve muscle and joint pain in smaller, hard-to-treat areas. Delivering consistent warmth for up to 8 hours, it helps relax sore muscles and reduce stiffness without the need for medication. Designed for direct-to-skin application, the ultra-thin, odorless band offers discreet, hands-free wear under clothing. The flexible band distributes heat evenly and can be customized to fit specific areas for focused relief.

Item Number:	HBH1500504CB (4ct)	HBH1500704CB (4ct)
Size:	3.8" x 5.1"	3.8" x 10.3"
Material:	Non-Woven	Non-Woven
Fill:	Iron Filings	Iron Filings

Air Activated Heat Band for small areas 4ct

- Compact size ideal for targeting small areas.
- Ultra thin and can be worn discreetly under clothing.
- Delivers long-lasting, even heat distribution for effective pain relief over a smaller surface area.
- Customized to fit the body area being treated.
- Adheres directly to skin for hands-free application.

Air Activated Heat Band for for Large areas 4ct

- Double the size of the small version, offering extended coverage for larger areas.
- Ultra thin and can be worn discreetly under clothing.
- Delivers long-lasting, even heat distribution for effective pain relief over a broader surface area.
- Adheres directly to skin for hands-free application.

Item Number:	HBH1500004CB (4ct)	HBH1500112CB (12ct)
Size:	3.5" x 11.5"	3.5" x 11.5"
Material:	Non-Woven	Non-Woven

Air Activated Heat Band 4 ct and 12 ct

- Delivers long lasting heat therapy for up to 8 hours.
- Customized to fit the body area being treated.
- Ultra thin and can be worn discreetly under clothing.
- Adheres directly to skin for hands-free application.

This wearable heat band delivers up to 8 hours of air-activated therapeutic warmth to help relieve muscle tension, stiffness, and joint discomfort in the neck, shoulders, and upper back—promoting circulation and relaxation without medication.

COOLING GEL STRIPS

Our cooling gel strips are medication free and safe to use with other prescriptions. Our unique combination of long-lasting cooling effect assists in relief from fever, migraines and hot flashes.

Pick your size and count to fit your needs.

Our Cooling Gel Strips provide cooling relief from fever, migraines, or hot flashes for up to 8 hours. Also effective in cooling the body by placing on the back of the neck, wrists, or under arms. These patches can be worn under clothing and can be easily applied directly to the skin adhering firmly, without leaving any sticky, greasy residue behind after removal. They are extremely flexible, soft and comfortable to wear.

Cooling Gel Strips

Direct-to-skin, non-medicated fever or migraine relief

MEDICATED PAIN RELIEF PATCHES

Our medicated patches offer targeted, penetrating therapy to relax muscles and soothe minor injuries. They are portable, convenient, and ready to use with both cooling and warmth effects. Easily applied directly to the skin with a peel-and-stick design, the patches adhere firmly without leaving sticky or greasy residue, and can be worn discreetly under clothing.

Methyl Salicylate patches increase blood flow to promote faster recovery of damaged tissue.

Menthol patches provide localized relief by delivering menthol through the skin.

Lidocaine patches block pain signals at the nerve endings for effective local anesthesia.

Item Number:	MPN2500006CB	MPN2500406CB
Size:	4" x 5.5"	4" x 5.5"
Material:	Polypropylene / Non-Woven	Polypropylene / Non-Woven
